

COMPANY OVERVIEW

AI Security Assurance is on a mission to accelerate the delivery of trustworthy systems. We are building tools that automate model-based systems assurance: identify hidden risks, generate evidence supporting system trustworthiness, and keep that evidence current as the system evolves. Our solution has been **competitively assessed by the Defense Advanced Research Projects Agency (DARPA) and has been deemed "awardable" in the Expedited Research Innovation System (ERIS) Marketplace**, making it available to view and easily procurable by the Department of War. We are a deep tech startup with team members in the DC-Maryland-Virginia region and expertise in systems security, cybersecurity, AI/ML, formal methods, mathematics, and quantum computing.

AI Security Assurance, LLC

UEI: RAFURLQRF3

CAGE: 16SR8

Email: info@aisecurityassurance.com

Phone: 1+ (301) 259-1748

Website: aisecurityassurance.com

CORE COMPETENCIES

- Automated systems assurance
- Systems safety and security analysis (STPA)
- Formal evidence and mathematical proofs
- Standardized system modeling (SysML V2)
- Software reverse engineering (binaries → SysML V2)
- AI/ML engineering
- Cybersecurity
- Software development
- Quantum computing, mathematics

NAICS CODES

- 541715 – Research and Development in the Physical, Engineering, and Life Sciences
- 513210 – Software Publishers
- 541330 Engineering Services
- 541511 – Custom Computer Programming Services
- 541519 – Other Computer Related Services
- 541512 — Computer Systems Design Services

PAST PERFORMANCE

We are a startup, enabling us to innovate and move fast. We come with a strong team of experts who sit at the intersection of systems analysis, cyber security, mathematics, formal methods, and AI/ML. Team members have experience in academia, a fortune 500 company, federal civilian government (AFRL), and DoD/DoW contracting. We're building our flagship product AI-Storm Navigator, a dual-use capability that accelerates delivery of trustworthy systems. If you have a .mil email, search for our solution on the DARPA ERIS Marketplace 7-26-3473 | AI-Storm Navigator – Automated Systems Assurance"

CERTIFICATIONS & MEMBERSHIP

- DARPA ERIS Marketplace awardable solution: "7-26-3473 | AI-Storm Navigator – Automated Systems Assurance"

- EDWOSB (Economically Disadvantaged Woman-Owned Small Business) – certified with SBA
- Virginia APEX Accelerator
- Google, AWS, and NVIDIA Inception for Startups

DIFFERENTIATORS

- STAMP/STPA methodology lineage, founding our products on trusted methodologies.
- Generalization & automation of STPA to any system or assurance goal.
- Addressing OWASP Insecure Design problem.
- Tooling built around the tools you use: MBSE, MBSD, SysML v2, STPA, formal methods
- EDWOSB triple set-aside
- Highly educated and experienced team

FACILITIES & EQUIPMENT

- **Fully remote workforce** with key personnel in the DC-Maryland-Virginia region.
- **Development infrastructure:** Self-managed resources.
- **Cleared personnel:** Founder holds active Secret clearance.
- Working towards CMMC Level 1 certification.
